OBJECTIVE

Secure a responsible career opportunity to fully utilize my training and skills, while making a significant contribution to the success of the company or department.

PROFILE

I have 4 years experience of Mobile Software Applications Development for Apple iOS platform. I have done training and courses in Artificial intelligence and data science. I have also worked on machine learning deep learning. I am confident, friendly and approachable meaning I work well with new people. I'm a quick learner with a keen eye for detail. Being highly motivated and an ambitious person, I'm not afraid to put in the hard work necessary. Due to many new experiences I can adapt well to new situations. I give my optimal performance every time something is expected of me and I can work well within a team.
